Experience studying in the heart of Europe

#### **STUDENT EXPERIENCES**

"My university was very international, we always had exchange students from all over the world: Asia, Middle East, South and North America, Australia Our school was always organizing activities and events that helped foreigners get along with the locals.

The general level of education is very

high. I liked that the study programme

was challenging, it was different from

the Russian educational system. Our

teachers were very knowledgeable and

student of BA Economics & Finance in Prague

"I was surprised at how friendly and helpful people I have come across here...

Staying here, far from home has taught me above all independence and responsibility. It helped me clarify my goals and persevere in achieving them."

student of BA Economics & Management in Olomouc

"At my university, I was enchanted by the infrastructure: everything you need is near by you: libraries and dormitories with night study rooms, canteens and wi-fi ... even a boatyard! All three years I lived in the dormitory because it was very comfortable, and I wanted to discover the Czech culture and mentality

I am convinced that applicants and students in the Czech Republic have a great choice of different branches or fields of study and excellent conditions for it. Big emphasis is placed on selfstudy."

Anastasia student of MA International Humanitarian & Social Work in Olomouc
