

CENTERS OF EXCELLENCE IN RESEARCH AND INNOVATION IN THE CZECH REPUBLIC

Recently, the top scientific projects of European or even world level have been established in the Czech Republic. The European Union has contributed to them with a huge amount of money. For example, large Czech research institutes, also called European Centers of Excellence, were established within the Operational Programme Research and Development for Innovation (OP RDI, 2007-2013), or they were amazingly modernized within this program. Now you can find the most modern technologies and international research teams working there. And where you can discover these top scientific projects in the Czech Republic?

- [BIOCEV Centre](#), Vestec
- [CzechGlobe](#) – Global Change Research Institute of the Czech Academy of Sciences (GCRI), Brno
